ABOUT US

Radiowave Communications Ltd is one of the leading providers of Wireless Communication Security & Detection, Navigation and Weather Monitoring Solutions in Tanzania with over 15 years of experience. With a range of internationally recognized best brand products and a well-established support structure, We are well positioned to offer flexible, innovative telecommunication, navigation and weather monitoring solutions that are uniquely tailored to the requirements of customers across Eastern Africa and beyond. We have the expertise, partnerships, and networks necessary in meeting the Wireless & Navigation, Voice and Data solution needs of diverse organizations including the Governments, Tourism, Mining, Engineering and Security sectors.

Our employees are highly skilled professionals who are trained to be able to understand the communication and Navigation needs of each client thereby designing a specialized specific solution for each of these clients. We offer a range of professional services and flexible solutions, from design and implementation to maintenance, support and repairs.

We have well established professional links and strategic affiliations with a network of manufacturers and suppliers thus ensuring that we have access to leading brands' solutions & services at the best prices thereby enabling us to offer our clients affordable packages without compromising quality.

OUR MISSION

To continually improve services by setting and achieving objectives in line with customer requirements.

OUR VISION

To be the leader in customer value in the field of Wireless Communications, Navigation and Weather Monitoring Solutions.

OUR VALUES

To provide a multicultural environment that motivates teamwork, continuous learning and development and reward of an individual achievement.

OUR PHILOSOPHY

We are passionate about understanding and meeting our clients' needs. Our extensive experience, knowledge and expertise combined with our exclusive supplier partnerships, gives us the flexibility to deliver against each client's strategic and operational requirements.

With over 15 years' experience, our dedicated team of specialists can design and deploy customized solutions. We pride ourselves in our ability to meet the toughest technological challenges.

WORKSHOP, SUPPORT CENTRE, FLEXIBILITY AND FIELD MOBILITY

We have a fully equipped workshop which has all the important testing equipment required for all equipment of communications, navigation and weather monitoring troubleshooting, servicing and repair including signal generators, oscilloscopes, frequency generators, frequency counters, dummy loads, RF meters, and a full range of support tools and equipment.

We have several mobile workshops which are essential for providing support during field installations. are equipped with electrical generators, power drills, grinders, electric and gas welding, ladder, safety belts and a full range of support tools and equipment. We also have 15 vehicles in support of staff and material transportation needs of different sizes, shapes to suit the loads and where required to go.

SERVICE & REPAIR

With many years of experience and expertise gained from working with a wide variety of client applications, Radiowave Communications has a strong knowledge base that enables efficient and comprehensive support for our clients.

Our extensive infrastructure of services, sales, support, and training helps ensure the success of our clients' communication systems, navigation and weather monitoring solutions. Our services center also offers superior training facilities, so that our clients can be fully equipped to operate their communication systems. Our technical support services include warranty, email query response, specialized training, online hand books, and documentation and spares supply.

SERVICE & SUPPORT

The basis of the technical support offered is derived from the strategic partnerships developed with leading global wireless technology players such as Motorola, Kenwood Communications, Vertex Standard Horizon (Owned by Motorola and previously known as Yaesu), Garmin and Inmarsat.

Accordingly, we have access to the leading edge of international developments in the wireless communications, navigation and weather monitoring solutions field and can provide our clients with the most appropriate technology, Equipment, software, accessories and services.

Radiowave Communications is a business within which the various divisions form an integrated unit, to ensure shared knowledge, maximum efficiency, and consistent logical flow. For network customers all of this is backed by our 24x7 control room support center complete with fully trained IT personnel and auto electricians staff who are multi-skilled and can offer the best, most efficient and personalized service to meet your business needs.
